Hi Cheryl,

That shouldn't change anything, we should still be able to get 10 a day pretty easily.

Lorenzo

Subject: Sample Collection

Hi Lorenzo:

After looking at the parameters that I would want to have analyzed, I am thinking we will need to pull 2 Liters of water. Would this affect the original estimate of 10 locations per day at 3 different depths of 20/40/60?

Sincerely,

Cheryl Burdett
